

Free Access to Legislation: How Do They Do It?: The TALL Publishers' Forum

Given our reliance on, and heavy usage of, non-commercial legislative websites and the rapid changes in technology used to deliver legislation and its supporting information, we thought it would be an ideal time to come together and discuss some important issues about the state of online legislation that are of interest to the TALL community.

Please join the TALL Publisher Liaison Committee as they sit down with non-commercial legislative publishers to discuss the practices and processes involved in maintaining these websites.

The TALL PLC is pleased to announce the following participants will be present at the forum:

- Ingrid Ludchen, Chief Legislative Editor, Department of Justice
- Susanne Hynes, Research Librarian, and Peter Ellinger, Manager of Library Technology Applications, Ontario Legislative Assembly
- Ivan Mokanov, Deputy Director, CanLII/LexUM
- Representatives from e-Laws
